Funding Bill Devotes More Money to War

Congress is preparing to approve tens of billions of dollars to fund the war in Iraq and expand fighting the war in Afghanistan.

Rather than voting for more money to expand the war in Afghanistan, Congress should invest in the long-term diplomacy and development assistance that will lead to a comprehensive and stable peace.

Urge your member of Congress to vote against war.

President Seeks A World Without Nukes

On April 5, Barack Obama became the first U.S. president in history to declare the U.S. commitment to seek peace and security in "a world without nuclear weapons."

One part of this new policy will be seeking Senate ratification of key international treaties to control the spread of nuclear weapons.

Please sign a petition urging your senators to speak out in favor of and urge three friends to do the same.
