Minute Supporting Sustainable Energy & Environment

3/10/2018

Energy Innovation and Carbon Dividend Act (H.R. 763):

This bill has been reintroduced to the House of Representatives and assigned to committees. Sponsors are looking for a Republican Senator to step forward and provide bi-partisan support to introduce a similar Senate bill. Last year, Arizona's Senator Jeff Flake sponsored a similar bill.

Minute 20190310-8:

Tempe Monthly Meeting of the Religious Society of Friends endorses the Energy Innovation and Carbon Dividend Act (H.R. 763) and asks that this area's House Representatives co-sponsor this bill. We ask that our Arizona Senators treat climate resilience as the bi-partisan issue that it is.

Bob Schroeder
Clerk, Tempe Monthly Meeting
