February 14th, 2024

The Honorable Joseph R. Biden, Jr.
President of the United States
The White House
1600 Pennsylvania Avenue NW
Washington, DC 20500

Mr. President:

We are non-governmental organizations supporting the protection of civilians in the conflict in the Occupied Gaza Strip and writing to urge you to restore funding to the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA).

After nearly four months of conflict which has devastated Gaza’s infrastructure and dangerously reduced essential supplies, hundreds of thousands of civilians – the vast majority of them children and women – are displaced and at grave risk of starvation and deadly disease. UNRWA is the most significant direct provider of humanitarian aid in the territory, with more than two million Palestinian civilians relying on it for critical necessities and services. UNRWA and its staff have gone to heroic lengths to continue aid operations even after catastrophic damage to many of its facilities and the death of more than 150 of their colleagues since the start of the current hostilities.

Twelve individuals among the 13,000 people UNRWA employed in the territory at the start of the current fighting are accused of taking part in Hamas’ October 7, 2023 attack on Israel. UNRWA, which has categorically and repeatedly condemned the attack, swiftly terminated the contracts of those accused. UNRWA’s Commissioner-General has requested the investigation of these employees be overseen by the highest investigative authority at the UN, while the UN Secretary General made it clear the Secretariat will cooperate with a competent authority to prosecute the individuals. This is in addition to UNRWA’s January 17, 2024 announcement that it is commissioning an independent review of staff guidelines and procedures to ensure that all staff adhere to humanitarian principles.

Continuing to suspend assistance to UNRWA for the alleged actions of individuals that UNRWA itself condemns and has pledged to help investigate is not only unjust, but detrimental to your administration’s goal of ending the current humanitarian crisis. Denying resources to UNRWA will only deepen the deprivation faced by civilians in Gaza, helping to spread rather than fight starvation and disease.

We therefore urge you to immediately restore US funding to UNRWA and to work with it and other aid agencies to urgently end the growing humanitarian catastrophe in the territory.
