

June 12, 2018

Dear Member of Congress:

We write to call your attention to the Principles for a Faithful Farm Bill, signed by 58 national faith-based organizations, calling for a Farm Bill that protects and strengthens nutrition assistance programs in the U.S. We are concerned about harmful proposals in the Farm Bill that would restrict eligibility for the Supplemental Nutrition Assistance Program (SNAP) by imposing arbitrary work requirements upon people who simply need help putting food on the table. These policies will have real impacts on real people, and fail to take into account the realities of their situation.

Many of our organizations, congregations, and leaders work to feed, clothe, house, and serve our friends and neighbors who are struggling, but we know that we cannot do this work alone. More than 40 million American men, women, and children struggle to put food on the table on a regular basis. While charitable organizations play a vital role in addressing hunger, we know that the overwhelming majority of food assistance in this country has historically come from—and must continue to come from—federal programs.

Sacred texts and proud traditions compel us to honor the dignity of every person, especially those who are struggling. No matter a person's circumstance, no one deserves to be hungry.

We call on Congress to ensure that the Farm Bill lives up to its historical promise and protects SNAP and the millions of Americans who must rely on it.

Signed,

***Principles for a Faithful Farm Bill***  
*March 2018*

From God's initial command to care for creation to the prophets' call for justice among governments and nations, people of faith in every age are called together to work for the common good. Inspired by our faith traditions' commands to care for poor and vulnerable people, we join together to support policies that promote local food security in the U.S. and around the world, strengthen rural communities, and care for the land as God's creation.

Our nation's food and farm policies as embodied in the Farm Bill impact people and communities from rural America to developing countries. The Farm Bill's resources must be effectively targeted where need is greatest. Programs and policies that curb hunger and malnutrition, support vibrant agricultural economies in rural communities, and promote the sustainable use of natural resources must be prioritized as part of a comprehensive Farm Bill, with adequate funding to fully meet these diverse needs.

Together, we urge Congress to take the opportunity presented by the reauthorization of the Farm Bill to reduce hunger and poverty in the U.S. and around the world and encourage sustainable stewardship of our resources. To this end, we support the following principles for the Farm Bill:

**Protect and strengthen programs that reduce hunger and improve nutrition in the United States.**

**Promote investments and policies that strengthen rural communities and combat rural poverty.**

**Provide a fair and effective farm safety net that allows farmers and producers in the U.S. and around the world to earn economically sustainable livelihoods.**

**Strengthen policies and programs that promote conservation and protect our natural resources from environmental degradation.**

**Protect the dignity, health, and safety of those responsible for working the land.**

**Promote research related to alternative, clean, and renewable forms of energy that do not negatively impact food prices or the environment.**

**Safeguard and improve international food aid in ways that encourage local food security and improve the nutritional quality of food aid.**
